Portfolio: <https://juao099.github.io/JoaoPedro/>

Full-Stack and Mobile Developer with 3 years of experience specializing in cross-platform development (Kotlin, Swift) and modern web stacks (Node.js, Vue.js, Tailwind CSS). Proven ability to manage app deployment on Apple Store/Play Store and integrate essential services (Stripe, Firebase, GraphQL), seeking to leverage technical expertise in a challenging environment.

Education and Courses:

- System Analysis and Development - Unicesumar
- JavaScript OOP (including: Node.js, Express.js) - Udemy
- Vue.js - Udemy + W3Schools
- Bootstrap 4 and Tailwind CSS – W3Schools
- MySQL and Basic PHP – self_educated
- Web Development - HTML, CSS, JavaScript - Kenzie Academy
- Swift and SwiftUI (MVVM-C, UIKit, ViewController - implementation in real projects)
- Flutter + Basic Dart - Mobile Development - Startto.dev
- Basic Figma Course

Experience:

Developer Flux Tecnologia and Network and Data Communication Analyst since December 2022 – October 2025

- Engineered mobile softphone solutions, leveraging Kotlin, Java, Objective-C, and native Swift to deliver continuous updates and feature enhancements across a portfolio of 70+ client applications.
- Owned the end-to-end Mobile App Lifecycle Management (MALM), overseeing submission, compliance, and release synchronization across . Apple Store Connect and Play Store Console.
- Managed the end-to-end deployment pipeline for a core Vue.js/Node.js SaaS application, including building, testing, and releasing updates directly to the company's production server.
- Integrated core third-party SDKs (e.g., Firebase for backend services and messaging, Google Analytics for performance tracking) to enhance product functionality and data visibility.

- Implemented secure web payment gateways utilizing the Stripe API to facilitate customer transactions and subscription management.
- GraphQL integration with Monday.
- Designed and implemented highly responsive user interfaces using Vue.js (or developed modular components), adhering to modern styling standards with Tailwind CSS and pure JavaScript.
- Architected and scaled robust API-RESTful services using Node.js, handling data processing and business logic for various client-side applications.
- Managed and optimized relational database architecture (MySQL Workbench), ensuring data integrity and high-speed query performance for transactional systems.
- Collaborated with design teams to translate high-fidelity Figma prototypes into functional UI/UX components, improving user flow and accessibility.
- Conducted deep-level analysis and maintenance of the SIP/VOIP communication infrastructure, proactively resolving data latency and ensuring carrier-grade service reliability.

Financial Secretary - ABIJCSUD March 2019 - June 2019

- Managed financial records and documentation, skills transferable to IT project management.
- #### Administrative Secretary - ABIJCSUD June 2019 - July 2019
- Experience in administration and data digitization, relevant to the organization of development projects.
 - Direct relationship with North Americans and Hispanics, assisting in learning the Portuguese language.

Skills:

- Languages: Portuguese: Native English: Intermediate (B2) - Self-taught Spanish: Intermediate (B1) - Fluent due to spouse being Venezuelan.
- Web and mobile app development
- Data analysis and communication
- Team leadership
- Event organization
- Excellent public relations
